

**Regarding the necessary expense for the attendance of our engineer
for contact resistance measurement at the test site.**

• Following is the basic charge for contact resistance measurement by attendance of the engineer.

In the case that the test takes a half day : ¥24,000

In the case that the test takes a whole day : ¥48,000

✕In the case of business trip is required, the transportation expense will be charged.

In the case of business trip is required, we calculate a half day as four hours and a day is maximum of eight (8) hours.

If the test exceeds eight (8) hours, the balance of hours will be calculated as a separate day.

In addition, if the test takes less than four (4) hours, it will be charged a half day, if the test exceeds four (4) hours, it will be considered a day and will be charged accordingly.

In the case of visiting your company for the test carried out in the attendance of the engineer, the basic charge for the test will be the same as above price.

Please also be noted that we will ask for an additional charge for the measurement with the above price.

Regarding the test prices, please refer to the entrust test price list.
